

1st FEBS LECTURE TOUR

A new Lectureship Program has been started by the Advanced Courses Committee of the Federation of European Biochemical Societies. The 1st FEBS Lecture Tour will take place in 1979.

Gary FELSENFELD

(Bethesda, MD)

will lecture on

NUCLEOSOME ARCHITECTURE AND CHROMATIN FUNCTION

as follows:

- February 1, London (*King's College, Dept. of Biophysics*)
- February 1, Cambridge (*MRC Laboratory of Molecular Biology*)
- February 5, Orléans (*Centre de Biophysique Moléculaire*)
- February 6, Paris (*Institut de Recherche en Biologie Moléculaire*)
- February 8, Munich (*Institut für Physiologische Chemie,
Physikalische Biochemie, und Zellbiologie*)
- February 9, Heidelberg (*European Molecular Biology Laboratory*)
- February 12, Strasbourg (*Laboratoire de Génétique Moléculaire
des Eucaryotes*)
- February 14, Barcelona (*Depto. de Química Macromolecular*)
